After a few weeks of exhaustive research, Vegas is here with your Myrtle Mayhem odds. Don't hate, appreciate.

Kremp/ Greg -1 vs Hardiman/ Dwyer

Word over at Team Hateful is Hardiman is drunk with power—emphasis on drunk. He thinks being team captain means you actually have some power. He makes Trump look like a consensus builder. Dave looks like he's being held hostage over there. We need some sort of proof of life. A brush tee will suffice.

Kremp/Greg's couple name is Gremple. They have embroidered golf towels and everything. Kremp looks like the evil villain in every James Bond movie.

Gold Balm Finger

Greg has threatened to turn on his Spotify playlist if they get down early. I'm checking to see if this violates and Geneva Convention regulations.

Vegas sees a close win for Gremple.

Brian/Alan vs McCann/Rush -2

Reports out of the Drunky Bunch camp--Brian and Alan have taken to calling Tim, "McCan't". As in Tim McCan't drive the ball as long as me. Rush will easily carry this match as his day 1 record is unmatched. Alan will secretly seethe and plot ways to Photoshop both opponents in compromising positions like the below photo.

Wait, that's not photoshopped??

Verdict, McCan't and Rush rule the day.

Rick/Ken -1 vs Vance/Monty

Relations between the US and Cuba have normalized and Ken and Rick are in the same pairing, coincidence?

Monty has a new dance partner. The only thing I could turn up on this guy is he was once in an erectile dysfunction commercial.

Erectile dysfunction got you down? Get back up with Cialis!

Disclaimer--Call your doctor if your erection lasts more than 24 hours

*Call my doctor? If it lasts that long I'm calling all my friends. Look at this sh*t!

Monty is coming to Myrtle wielding a 3 wood, his putter and a 33% win percentage. This is Sparta!

I see this as a Rick/Ken lean but may change as we find out more about the new golfer, ED.

Dinora/James vs Saint/ Aaron -2

The only picture I could find of Big Game James was this one.

Looks a bit like Mike and Alan had a love child. Weird...

Rumors out of the Drunky Bunch camp are that players are concerned with Dinora's ability to stay on the field. He's like Derick Rose without the talent. The Hateful 8 group has re-nicknamed him the porcelain giant. James may have to wrap him in bubble wrap between holes.

Vegas sees this match going to the Saint and Aaron. The Saint will hit bombs and have laser like approach shots while Aaron replaces his divots and cleans his clubs. They are a real handful together.

Pre-Myrtle Quote of the year

Jack Package after he received the email from Steve stating the teams and all the rule changes he and Mark wanted to make—

Chances Dave lets Dinora and Hardiman captain again 3%

Chances of meeting someone at Myrtle who is disfigured from stepping on a hoe 75%

Odds Monty yells buckets when hitting a 4 foot putt 5-1

Dave 8-1

Tim 55-1

Chances Monty gives Greg the Bluetooth code to his speaker 1%

Odds a cell phone gets left in the van

Steve 2-1

Greg 3-1

Dave 8-2

Odds we have Cookie drive all the way back because we think we left a phone in the van but it's really in someone's pocket

Dave 1-1

The rest 40-1

Odds everyone will get very tired of Rick and Package's Paul impression 80%

I did a face swap with Paul and Elton and Elton looks a little younger with better hair and Paul looks like it's Myrtle 2025. Uncanny.
